HENRY FORD'S DREAMS

Is a club made up of many different age groups and interest? We have members with large collections and some with one. Our members are a working body in the preservation of the Ford Motor Company and all it's values, rather you are a collector of tractors or a vintage car collector, you'll find great friendships and fellowships.

We wish for you to take heart to our club and learn more about us and allow us to field your questions.

"We want to live in the present and the only history that is worth a tinker's damn is the history we make today."
